

Welcome to

We Think Globally

Who We Are

Our company starts its history in 2010, in the city of Santos, the largest port in Latin America, in Brazil. We started as NVOCC / Freight Forwarder, Import and Export by Sea and Air.

The Company has grown over the years in other logistics businesses, such as Road Transport and Customs Clearance.

In 2017, we started a new phase in logistics projects, coordinating the supply chain, inventory, storage, distribution and special projects.

BRASFREIGHT LOGISTICS

What We Do?

Logistics is our focus.

- Maritime
- Air
- Road
- Customs Clearance
- Storage
- Supply chain
- Logistics Projects
- Transport in Special Equipment

BRASFREIGHT LOGISTICS

Sea Shipments

Maritime Import

We are regulated as NVOCC at the Brazilian Customs, being able to act as Cargo Agent throughout the national territory, taking care of its Imports, be it container cargo - FCL, small cargo - LCL, as well as project cargo, such as Machines, parts or any cargo not divisible.

Maritime Export

We offer EXPORT specialized services for FCL (full containers), LCL (small loads) and project loads, heavy or non-standard, ore, chemicals, machinery, grains, frozen, fruits, fertilizers and others, in all Brazilian ports. anywhere in the world.

BRASFREIGHT LOGISTICS

Air Shipments

Air Import

For high value-added cargo or in urgent cases to be received in Brazil, we coordinate all Import Air Transport. This can optimize your lead time in your production or resale process, increasing your competitiveness in the market.

Air Export

Samples or, depending on the urgency of your delivery, when the priority is to reduce the delivery time of a cargo, we provide the Air Export Service. Goods with high added value or with urgent shipment, we recommend this type of operation, fast and safe. Serve your customers quickly using this modal

BRASFREIGHT LOGISTICS

Road Transport

With our experience, we operate in road transport throughout Brazil. Our range of services meets the main needs of our customers.

We operate with small loads, boxes, pallets, Bags, Big Bags, drums etc. Projects of excess loads with non-standard weight and dimensions. Another type of transport we do is containers, helping our customers to reduce costs, concentrating services on only one supplier, whether importing or exporting. And better in all ports in Brazil.

In addition, you can count on dedicated transport, such as inputs and raw materials, which need transport with special equipment, such as dump trucks, tipping silos, pressurized, blowers, for dangerous or not.

Supply Chain Management

The supply chain consists of a complex process that begins with the production of the raw material and ends with the delivery of the manufactured product to the consumer.

It is present in the distributor's routine. Within the value chain, which is the network of continuous and integrated processes whose objective is to make the product reach the consumer, the distributor needs to manage a series of variables, such as: storage, transportation and logistics planning, as well as the stock management.

Supply Chain Management

It is very important not to adopt policies in which the Company runs the risk of running out of supplies, which is why we are ahead, helping companies like yours in Supply Chain Management - SCM.

- **Solid Bulk**
- **Liquid Bulk**
- **Dangerous**
- **Dry Cargo**

BRASFREIGHT LOGISTICS

Project Cargos

Brasfreight provides various types of transport and distribution.

Non-divisible loads, such as machinery and equipment, in import or export, road licenses, routes, support points and all necessary procedures.

Special equipment, such as tank silo, pressurized or not, tilting or rigid, for solid or liquid bulk cargo, tilting container port, among others, coordinating the supply chain in Brazil.

Dangerous cargo, IMO is transported within technical standards with strict supervision.

BRASFREIGHT LOGISTICS

Warehouse

Brasfreight has a base in Monte Mor-SP (20 km from Campinas-SP), the warehouse with a covered area of 5700m² in partnership with Montemoreense.

General Warehouse: Logistic operation with receipt, sorting, palletizing, stretch and shipping of goods. Excellent structure, with storage capacity for more than 3,600 pallets, with a total of 24 m²

Complete Inventory Control and coordinated by highly qualified professionals. Quality Management certified by ISO9001: 2008

With our excellent network, we operate and coordinate warehouses, customs or general stores throughout Brazil, where we build all the structure you need.

BRASFREIGHT LOGISTICS

Customs Clearance

BRASFREIGHT Has structure and know-how to provide efficiency in the release of import and export cargo.

We are responsible for inserting all the necessary data in the systems, such as Siscomex, Siscarga, Mercante, among others, in addition to obtaining certificates from the corresponding institutions, for example: Secretariat of Foreign Trade, Secretariat of Federal Revenue, Ministry of Agriculture and Ministry of Agriculture.

BRASFREIGHT LOGISTICS

Customs Clearance

We provide all the necessary study for your company to meet your expectations in import and export.

We issue and coordinate all licenses with the competent bodies and provide customs clearance services around the world;

Declarations, Records, Customs Liquidation, Map, Anvisa, among others. We instruct our customers to take advantage of legal tax benefits.

Assinatura :

Safety & Training

Behavior-Based Safety is a process that creates a safety partnership between management and employees that continuously focuses people's attention and actions on theirs, and others, on daily safety behavior.

We are proud to have achieved a company culture that appreciates and rewards responsible behavior.

BRASFREIGHT LOGISTICS

Sustainability

Correct disposal for accredited and approved companies:

By-products such as tires, filters and lubricating oil are disposed of correctly.

Recyclable materials: paper, glass, metal and plastic sent and made available to the responsible companies.

Water reuse system:

Water treatment used in vehicle washing, being a perfect reuse.

Rainwater harvesting, saving money and mainly preserving the environment.
